

Live Webinar on Real World Manipulation Techniques Used by Prescription Stimulant Drug Abusers

Horsham, PA (May 6, 2019) – Researchers from DRUGSCAN® and Syneos Health® announced today that they will host a live, complimentary webinar titled, "Untangling methods to tamper with prescription stimulants: Perspectives from the bench-top to the real world" on Wednesday May 8, 2019 from 12:00 PM to 1:00 PM EDT.

This webinar will feature interviews with recreational prescription stimulant abusers offering a rare look into the manipulation techniques abusers use to prepare prescription stimulant capsules and tablets for routes of administration that provide a more powerful euphoria, such as intravenous or intranasal. The webinar will also discuss the laboratory experiments scientists conduct to evaluate the properties of abuse-deterrent formulations that are designed to resist these manipulation techniques.

For more information and to register for the webinar, click here: [Registration](#). The webinar will be recorded and available for on-demand viewing at the DRUGSCAN website.

About DRUGSCAN®

DRUGSCAN's CAT.one® laboratory-based manipulation and extraction studies are designed and conducted to produce data that can predict a product's strengths and weaknesses to physical and chemical manipulations as well as to support abuse-deterrent label claims. Employing state of the art technology and abuse-deterrent testing expertise, DRUGSCAN has been at the forefront of designing and conducting manipulation and extraction studies for many of the leading abuse-deterrent product developers in the US and around the world. To learn more about DRUGSCAN and their CAT.one capabilities, please visit www.drugscan.com or call 800-235-4890

About Syneos Health

Syneos Health (Nasdaq:SYNH) is the only fully integrated biopharmaceutical solutions organization. Our company, including a Contract Research Organization (CRO) and Contract Commercial Organization (CCO), is purpose-built to accelerate customer performance to address modern market realities. Created through the merger of two industry leading companies – Syneos Health and inVentiv Health – we bring together more than 23,000 clinical and commercial minds with the ability to support customers in more than 110 countries. Together we share insights, use the latest technologies and apply advanced business practices to speed our customers' delivery of important therapies to patients. To learn more about how we are shortening the distance from lab to life® visit syneoshealth.com.
